Specification Catalog

March 7, 2011

MARSH PRODUCT WARRANTY FIVE (5) YEAR LIMITED WARRANTY

Marsh Furniture Company (“Marsh”) warrants to the original user for “Household Use” only as defined below that for a five (5) year term, measured from the date of purchase from Marsh, Marsh will repair or replace any product of Marsh’s manufacture which is defective in material and workmanship. The term “Household Use” shall include use for personal and family purposes as well as in hotel or motel residential short term rental units, but does not apply to other purposes for commercial use. The remedy of repair or replacement (which shall be at the option of Marsh) is the exclusive remedy of the user. Claims for repair or replacement should be submitted to Marsh at P.O. Box 870, High Point, NC, 27261-0870.

It is the nature of wood products to have variations in the grain pattern and wood color. Any surface finish may be affected by exposure to sunlight and other elements as part of the natural aging process. These material variations and changes are not covered by this warranty. Proper care and use are essential to preserving your rights to this Warranty. Marsh will not repair or replace any product if damage is caused by improper use or maintenance such as the use of abrasives or harsh cleaning agents on cabinet surfaces.

Additionally, this warranty does not cover damage to Marsh products from negligence, abuse, normal wear and tear, accidents, trauma, fire, water damage, or other catastrophe, or if a product is routinely subjected to steam or unusually high humidity. Costs related to damages incurred in transit, handling, installation, and all costs related to the transportation, removal or reinstallation of defective Marsh products are not assumed by Marsh under this Warranty.

MARSH MAKES NO IMPLIED WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE. THESE AND ALL OTHER IMPLIED WARRANTIES ARE SPECIFICALLY DISCLAIMED. IN NO EVENT WILL MARSH BE LIABLE FOR CONSEQUENTIAL, INDIRECT OR INCIDENTAL DAMAGES RESULTING FROM ANY CAUSE.

Some states do not allow limitations on how long an implied warranty lasts and some states do not allow an exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

- 1.2** Walls

Marsh Furniture Company offers both solid hardwoods and hardwood veneers in our cabinetry. These natural materials have inherent characteristics such as varying grain pattern, small mineral streaks, knots, and slight color variations. Because of this, our quality standards establish tolerance ranges for matching the wood.

These variations are what create the unique natural beauty of each piece. Additionally, exposure to sunlight, smoke, and other chemical agents can cause wood colors to change over time. You are urged to make final selection of specie and finish from a full size door sample.

Cherry is a moderately hard wood, heavy and strong. It is generally a straight grained, uniformly textured wood characterized by its red undertones. Given that, it may range in color from a light to dark reddish brown heartwood with tones from greenish to white sapwood. There is also a natural occurrence of small knots, pitch pockets or wormholes in the surface of the wood. Cherry is well known for its response to artificial and natural light sources, developing a rich and lustrous patina in the colors noted above. These variations are often quite visible with natural or light finishes while appearing less on darker stains, shielding the wood from various light sources.

Maple is a hard and dense wood with a close grain that is relatively subtle in appearance. The grain pattern may vary from a tight vertical pattern to a wild arch-shape. The color range runs from white to yellow and brown. Marsh is very selective in this color range, ensuring the brown portion to have a faint brown tint. Inherently, there are fine honey-colored mineral and sugar streaks. Maple will react to both natural and artificial light sources, taking on a slightly subdued patina. When a light finish is applied, these variations are visible and should not be considered defects.

Oak is an extremely hard wood with an open grain pattern. The pattern may vary from a tight to wide pattern with a coarse texture. In oak's natural state, colors may range from brownish with a red tinge to a light yellow. When a light finish is applied, these variations are visible and should not be considered a defect.

Birch is a medium-hard wood with plain and closed grain. The grain is often characterized as a curly or wavy pattern. It is predominantly a light yellow wood that takes stain very well. When a light finish is applied these variations may be visible and should not be considered a defect. When a dark stain is applied the wavy and curly grain absorbs stain and reflects light in such a manner as to enhance the natural characteristics of the species and should not be considered a defect.

Thermofoil is Medium Density Fiberboard (MDF) covered with a durable thermofoil laminate. The maple wood frame is painted with a white paint to closely match the laminate. You may notice some small seams in the paint at the joints of the cabinetry face frame due to expansion and contraction of the wood. This will not affect the integrity of the cabinet or the finish.

Painted Wood differs from standard finishes. Wood products expand and contract due to changes in climatic conditions. Some of the characteristics that are common and acceptable aspects of painted wood include finish breaks, slight recesses, and seam lines at stile, rail, and panel joints. Joint separation may be more apparent on mitered doors; therefore, opaque finishes are not recommended for use in environments of high humidity. Since seam lines and variations are normal characteristics of opaque finishes, they will not be considered reason for product replacement.

You may be required to sign a FINISH WAIVER FORM when ordering a painted product. Neither Marsh Furniture nor your Marsh dealer can be responsible for these conditions.

CABINET SPECIFICATIONS

A Face Frames

- Constructed of 3/4" kiln-dried select woods grooved to accept the cabinet box
- Joints are mortise and 3/8" tenon construction, glued and secured with steel fasteners
- Base cabinet and the wall cabinet frames have 1-1/2" stiles and rails

B Doors

- Solid wood stiles and rails
- Wood veneer door panels
- Thermofoil Medium Density Fiberboard (MDF) door selections

C End Panels

- Constructed of 1/2" industrial grade particleboard laminated with exterior laminate to match finish; interior is natural maple laminate
- The white door styles are white laminate

Top and Bottom Panels

- Top and bottom panels are 1/2" industrial grade particleboard laminated
- White door styles are white laminate

Back Panels

- Back panels are 7/32" industrial grade medium density fiberboard (MDF) laminated on interior, captured between end panels
- White door styles are white laminated interior

Plywood Construction (PC)

- 1/2" Birch plywood top, bottom and end panels; backs are 7/32" birch veneer interior and exterior with clear topcoat
- 3/4" Plywood constructed shelves for walls; 5/8" plywood for bases
- Toe kick is 5/8" plywood

For Plywood Ends Only (PE):

- End panels are 1/2" plywood with birch veneer interior and exterior with clear top coated finish

Plywood Construction Option (PC) and Plywood End Option (PE) comes with a Finished End Option:

Finished End (FE) Option

- Birch veneer end to match door and frame specie and finish
- Order R (right), L (left), and B (both) ends finished

↙ Hanger Rails

- Wall cabinet top and bottom hanger rails are 3/4" industrial grade particleboard secured behind the back panel, captured between end panels

D Shelves

- Shelves are constructed of 5/8" industrial grade particleboard laminated on both faces
- White door styles are white laminate
- The front edges of shelves have PVC edge-banding applied to match interior
- **Base shelves** are 5/8" thick adjustable and half-depth
- **Wall shelves** are 5/8" thick and adjustable in 3" increments

E Hinges

- 6-way fully concealed 108° self-closing cup hinges allow easy height (vertical), side (horizontal) and depth (in/out) adjustment

F Cabinet Interior

- The standard cabinet interior is a laminate with a natural wood grain print
- A white laminate interior will be used for thermofoil and painted door styles in white
- **Finished Interior Option (FI)** — On wall, base and tall cabinets up to 24" deep, the "FI" option can be selected
- The cabinet interior will be a grain print laminate that matches the finish color
- FI option on glazed cabinets will not be glazed but will match the finish color
- Shelves in cabinets with the FI option will be PVC edge banded to match

G Drawers

- Drawers feature 5/8" particleboard drawer box construction with side-mount, self aligning, epoxy-coated guides and attached to drawer with screws
- Drawer bottoms are 7/32" laminated industrial grade particleboard
- The drawer bottom is fully captured into a groove, positioned 1/2" up from the bottom edge of sides, front, and back
- Drawer guides are certified up to 75 lb.

Upgrade Options:

- 5/8" Wood dovetail drawer box with 3/4 extension undermount guides (WD)
- 5/8" Wood dovetail drawer box with full extension undermount Soft Close guide system (FX)
- Drawer sides, front and back, are constructed of 5/8" solid wood featuring dovetail construction
- Wood drawer bottoms are 1/4" plywood
- Drawer guides are certified up to 75 lbs.
- 5-piece drawer front option on select full overlay door styles (see pages 0.9-0.11)

H Base Corner Braces

- Rigid plastic secured with steel fasteners
- Braces are pre-drilled to anchor the countertops

I Toe Kicks

- The toe kick is inset into the cabinet box 3" and is 4-1/2" high
- Toe kicks are 5/8" unfinished industrial grade particleboard
- To finish the toe kick space, a TK or TP overlay is required (page 5.29)

— Options available are listed under each cabinet

CASE OPTIONS FOR PLYWOOD CABINETS

Finished Ends (FE)

- ◆ Species and finish matched to cabinet
- ◆ Applied to PC and PE cabinets only
- ◆ Ends need to be specified as R (Right), L (Left), or B (Both)
- ◆ Will NOT flush out end

Overlay Ends (OE)

Available on Wall, Base/Vanity, Tall

- ◆ 3/16" plywood
- ◆ Use to flush end
- ◆ Veneered to match specified finish and species
- ◆ Specify R (right), L (Left), or B (Both)

**Use an OE when ordering Decorative Overlay doors

Plywood Construction (PC)

Available on Wall, Base/Vanity, Tall

- ◆ 1/2" plywood sides
- ◆ 7/32" birch veneer backs
- ◆ 3/4" plywood shelves for Walls
- ◆ 5/8" plywood shelves for Bases
- ◆ Interior and exterior will be clear-coated, natural birch veneer
- ◆ Finished Ends (FE) can be ordered to match the cabinet finish where ends are exposed
- ◆ Overlay Ends (OE) can be ordered if a flushed end is desired

Plywood Ends (PE)

Available on Wall, Base/Vanity, Tall

- ◆ 1/2" plywood sides
- ◆ Top, bottom, and back will be natural maple laminate
- ◆ PE sides will be clear-coated, natural birch veneer, interior and exterior
- ◆ Finished Ends (FE) can be ordered to match the cabinet finish where ends are exposed
- ◆ Overlay Ends (OE) can be ordered if a flushed end is desired

Reference Modifications Table on Page 0.21

Features:

- ◆ Cabinet interior is laminate with a natural maple grain pattern. White interior will be used on white frame cabinets.
- ◆ Hinges are fully concealed 6-way adjustable with a limited lifetime warranty from manufacturer.
- ◆ Hinging must be specified left or right for Arch door styles. Right-hand hinging standard on single door cabinets.
- ◆ Please refer to Cabinet References (pages 0.9-0.15) for decorative hardware requirements.

Options:

Available options are noted beside each cabinet.

- ◆ Depth Change: A reduction in 3" increments with 6" being minimum depth allowable. Cabinets may be increased in 3" increments up to a maximum depth of 24".
- ◆ No Doors: Finished interior is not included standard in this option.
- ◆ Finished Interior: Glazed cabinets will not have a glazed interior.
- ◆ Applied Overlay Ends: Use an Overlay End to flush out an end. This is required when applying a decorative door.

Reference Modifications Table on Page 0.21

Features:

- ◆ Cabinet interior is laminate with a natural maple grain pattern. White interior will be used on white frame cabinets.
- ◆ Hinges are fully concealed 6-way adjustable with a limited lifetime warranty from manufacturer.
- ◆ Right-hand hinging standard on single door cabinets.
- ◆ Arch door styles not available in base cabinets.
- ◆ Drawer cabinets with a reduced depth of more than 18" will receive a vent unless upgraded to FX.
- ◆ Standard cabinet has a 3/4 extension, particleboard drawer. Plywood Cabinet (PC) has a 3/4 extension, plywood drawer as standard.
- ◆ Shelves are half-depth.
- ◆ Cabinets have unfinished toe kick. A Toe Kick (TK) or Toe Plate (TP) must be ordered to finish.
- ◆ Please refer to Cabinet References (pages 0.9-0.15) for decorative hardware requirements.

Drawer Upgrade Options:

- ◆ WD: Wood dovetail drawer; 3/4 extension, concealed slide (add \$78 to list).
- ◆ FX: Wood dovetail drawer; full extension with Soft Close slide (add \$180 to list).

Options:

Available options are noted beside each cabinet.

- ◆ Depth Change: A reduction in 3" increments with 12" being minimum depth allowable.
- ◆ No Doors: Finished Interior is not included standard in this option.
- ◆ Finished Interior: Glazed cabinets will not have a glazed interior.
- ◆ Applied Overlay Ends: Use an Overlay End to flush out an end. This is required when applying a decorative door.
- ◆ Bottom Drawers: Check Options Chart beside cabinet for availability.

BASES

STANDARD ROLL OUT TRAYS

Order RTU same size as cabinet
 Standard two drawer cabinets require one pair
 Bi-parting cabinets use one full-width tray
 30" and 36" bi-parting are only available in wood
 Standard RTU is 7mil miter-fold vinyl tray with 3-5/8" sides
 Available in natural Maple for wood lines and white for white lines
 Designed for 24" cabinets only; will not fit vanity cabinets
 Pilasters are 20" tall and sit 1/4" from bottom of cabinet
 Accommodates 3 roll outs max per pilaster
 If 4 trays needed, order 2 SGL's and 2 EXT's
 SGL's come with pilasters and drawer guides system
 EXT's are trays only and do not come with pilaster
 50 lb. capacity per tray
 Not available with full extension guide
 Hinge on modified handicap cabinet must be changed to accommodate RTU

Reference Modifications Table on Page 0.21

Features:

- ◆ Cabinet interior is laminate with a natural maple grain pattern. White interior will be used on white frame cabinets.
- ◆ Hinges are fully concealed 6-way adjustable with a limited lifetime warranty from manufacturer.
- ◆ Right-hand hinging standard on single door cabinets.
- ◆ For Oven Cabinets (OC), standard drawer is 3/4 extension particleboard drawer; plywood is 3/4 extension plywood.
- ◆ Bottom doors will not be Arch door style.
- ◆ Shelves are full depth.
- ◆ Cabinets have unfinished toe kick. A Toe Kick (TK) or Toe Plate (TP) must be ordered to finish.
- ◆ Please refer to Cabinet References (pages 0.9-0.15) for decorative hardware requirements.

Drawer Upgrade Options:

- ◆ WD: Wood dovetail drawer; 3/4 extension, concealed slide (add \$78 to list).
- ◆ FX: Wood dovetail drawer; full extension with Soft Close slide (add \$180 to list).

Options:

Available options are noted beside each cabinet.

- ◆ Depth Change: A reduction in 3" increments with 12" being minimum depth allowable.
- ◆ No Doors: Finished interior is not included standard in this option.
- ◆ Finished Interior: Glazed cabinets will not have a glazed interior.
- ◆ Applied Overlay Ends: Use an Overlay End to flush out an end. This is required when applying a decorative door.
- ◆ Bottom Drawers: Check Options Chart beside cabinet for availability.

Reference Modifications Table on Page 0.21

Features:

- ◆ Cabinet interior is laminate with a natural maple grain pattern. White interior will be used on white frame cabinets.
- ◆ Hinges are fully concealed 6-way adjustable with a limited lifetime warranty from manufacturer.
- ◆ Vanity cabinets are 31-1/2" high standard and 34-1/2" high for Base Height (BH).
- ◆ Hinging must be specified left or right. Right-hand hinging standard on single door cabinets.
- ◆ Arch door styles not available in vanity cabinets.
- ◆ Drawer cabinets with a reduced depth of more than 18" will receive a vent unless upgraded to FX.
- ◆ Standard cabinet has a 3/4 extension, particleboard drawer. Plywood Cabinet (PC) has a 3/4 extension, plywood drawer as standard.
- ◆ Shelves are half-depth.
- ◆ Cabinets have unfinished toe kick. A Toe Kick (TK) or Toe Plate (TP) must be ordered to finish.
- ◆ Please refer to Cabinet References (pages 0.9-0.15) for decorative hardware requirements.

Drawer Upgrade Options:

- ◆ WD: Wood dovetail drawer; 3/4 extension, concealed slide (add \$78 to list).
- ◆ FX: Wood dovetail drawer; full extension with Soft Close slide (add \$180 to list).

Options:

Available options are noted beside each cabinet.

- ◆ Depth Change: A reduction in 3" increments with 12" being minimum depth allowable.
- ◆ No Doors: Finished interior is not included standard in this option.
- ◆ Finished Interior: Glazed cabinets will not have a glazed interior.
- ◆ Applied Overlay Ends: Use an Overlay End to flush out an end. This is required when applying a decorative door.
- ◆ Bottom Drawers: Check Options Chart beside cabinet for availability.

Accessories

Some accessories not available in Birch.
In this case, Maple can be substituted.

* Some items will not have a place for glaze hangup. These will be coated overall in glaze for color-blend consistency when a Frost or Ivory finish is chosen using a Caramel or Chocolate glaze.

Overlay door sets for UC's consist of 1 top door and 1 bottom door - 24" deep UC's need 2 sets. It is recommended when using standard overlay doors, that an Overlay End (OE) be used to flush out an end before the decorative overlay door is applied.

An Overlay End is required when using a full overlay door.

TOUCH-UP AEROSOL SPRAY AND STAIN

HAZMAT charges do apply **Quart Stain**
Required by DOT, Regulation HM126F
Hazmat certification is required if an individual is picking up **Aerosol Spray**

CARE AND MAINTENANCE OF MARSH CABINETS

WOOD SURFACES

For normal cleaning use a clean soft cloth dampened with a mild solution of two drops of dishwashing liquid per one gallon of water.

Dry off thoroughly, removing any excess moisture.

DO NOT USE STRONG DETERGENTS, SOLVENTS, OR ABRASIVE CLEANERS.

Do not use a dish cloth on cabinet surfaces.

THERMOFOIL AND MELAMINE SURFACES

For normal cleaning use a clean soft cloth dampened with a mild solution of two drops of dishwashing liquid per one gallon of water.

Dry off thoroughly, removing any excess moisture.

DO NOT USE STRONG DETERGENTS, SOLVENTS, OR ABRASIVE CLEANERS.

Do not use a dish cloth on cabinet surfaces.

All **non-abrasive** household cleaners may be used. Examples: Simple Green, Formula 409, etc.

When using a self-cleaning oven, opening all the adjacent doors and drawers or using heat shields is recommended. This is to help prevent damage and discoloration of the cabinets.

MOISTURE FROM STEAM AND HOT WATER PRESENT IN KITCHENS SHOULD BE KEPT OFF OF ALL CABINETS. IF CABINETS DO GET WET, DRY THEM BY WIPING WITH A CLEAN SOFT DRY CLOTH TO MAINTAIN FINISH.

PROFILES FOR GL DOORS AND FILLER BOXES
